

CHOOSING A HIKE

- Select a hike from the current list based on your realistic capabilities to handle the distance, elevation gain, degree of difficulty, temperature sensitivity, and your ability to maintain a reasonable pace.
- All Trails App online or Green Trails maps from local retailers are valuable references for choosing a hike.
- Discuss with the guide the degree of difficulty if you are unfamiliar with the selected hike.
- Contact the guide to register for a hike (see hike description for contact information). Consider your other schedule commitments before signing up.
- You must receive an email confirmation from the guide that you are on the hike list regardless of how you signed up.
- The latest time to register for a hike is 4:00pm the day before the hike (unless otherwise specified).
- If you need to cancel (e.g., not feeling well or become unsure of your ability to do the hike), do so ASAP so the guide can offer your place to another member on a wait list.
- Do not depend on a hike being done at a specific time. If time for you that day is tight, don't go on the hike. Guides do not adjust hikes to meet individual schedules.
- Tell the guide if you are available to be a driver and the seating capacity of your vehicle. Members (if they are able) should take their turn being a driver.
- Privately inform the guide, when you register for a hike, about any physical limitations or medical conditions that may affect you on the hike.
- The guide has the discretion to accept or reject a hiker based on the guide's determination of the hiker's capability to do the hike. Please accept the guide's decision as final.
- The guide may cancel a hike for weather or other considerations.
