

Changing the Guides Info Password

1. Open the Wix editor
2. On left side, click on the circular icon on the top of the column of icons labeled "Menus & Pages"
3. Scroll down and click on "Guides Info" and then the "... " icon on the right of that line. This brings up another menu.
4. Click on Settings
5. Click on Permissions
6. Fill in new password
7. Close Menus and Pages and "publish" results
8. Test
9. To change the password for "Administrator's Info" , substitute that title into step 3 and proceed as before.
